THE WORLD OF CLOUD COMPUTING ALL IN ONE PLACE
CLOUD COMPUTING | BIG DATA/ANALYTICS | INTERNET OF THINGS | DEVOPS | WEBRTC

AS WE ENTER 2015, CLOUD COMPUTING IS BEING EMBRACED BY A MAJORITY OF ENTERPRISES AND ORGANIZATIONS OF ALL SIZES. MORE THAN 90% OF ENTERPRISES ARE USING SOME FORM OF XAAS—PLATFORM, INFRASTRUCTURE, OR SOFTWARE AS A SERVICE.

FURTHERMORE, TODAY’S DISCUSSION REVOLVES AROUND HYBRID CLOUD—WITH 74% OF ENTERPRISES POSSESSING A HYBRID STRATEGY—AND HOW CLOUD COMPUTING CAN BEST BE INTEGRATED WITH BIG DATA/ANALYTICS AND IOT INITIATIVES.

Cloud Expo is the single event in which delegates and technology vendors can meet to experience and discuss the entire world of the Cloud. It is also the world’s leading independent Cloud technology event—not a small hotel show or a diffuse vendor show oriented around entertainment. Cloud Expo is the one and only original, with a laser focus on the best speakers, content, and technology exhibition.

As Cloud Computing drives increasing percentages of enterprise IT budgets, it becomes paramount for technology vendors to reach their customers and prospects as effectively as possible.

Cloud Expo draws more than 7,500 of these customers and top prospects to the Santa Clara Convention Center in the heart of Silicon Valley in Santa Clara, CA. They attend to learn about the growth of Cloud Computing, the emergence of Big Data/Analytics & the IoT, and how DevOps and WebRTC are impacting and accelerating this growth.
